PROSPETTI
scala 1:500

This architectural elevation drawing shows a modern building facade with a series of rectangular volumes and large windows. The building is set against a bright blue sky with light, wispy clouds. To the right of the building, a row of green trees is visible, and a low, dark horizontal line suggests a ground level or a fence. The drawing is a clean, minimalist representation of a building's exterior.

This architectural rendering shows a long, low-profile building with a light-colored facade and a series of rectangular windows. A section of the roof on the left is highlighted in red. The building is flanked by green trees, and the entire scene is set against a blue sky with light clouds.
